Facility: _____ Department Name: _____

I stand with my peers and for my patients to collectively participate in unified concerted action to move our bargaining priorities; by holding Los Angeles County accountable to negotiate a fair, equitable and just contract.

- **A contract that values and takes into consideration our work and demanding conditions of work in this national and severe shortage of psychiatrists and dentist.**
- **A contract that includes fair and equitable benefits just like management.**
- **A contract that recognizes our contributions during the pandemic by providing equitable wages standard in the community.**
- **A contract that values our patients by providing us with the resources we need.**
