

# “Big Data” to Hands-On Care

**A Four Credit Live CME/CE Activity  
Free for UAPD Members**

**Register Online at  
[www.uapd.com/meeting2016](http://www.uapd.com/meeting2016)**

**Saturday October 15, 2016**

**11 am - 3:30 pm**

**San Francisco Airport Marriott Waterfront  
1800 Old Bayshore Highway, Burlingame**

**Four (4) AMA PRA Category 1 Credits™**

**Four (4) Dental Board Credits**

**Four (4) ACPE Pharmacy Credits**

Medicine has always been data-driven. But in recent decades, the amount of data that’s being collected and stored has increased faster than our ability to analyze it. There are now trillions of points of molecular, clinical, and epidemiological data waiting to be explored.

This CME/CE focuses on those who are using “big data” to develop new methods of patient care. Whether it’s by sequencing the 3 billion nucleotides in the human genome, combing through decades worth of electronic health records, or crunching the sleep data of the 10 million active Fitbit users -- innovative thinkers with big computers are coming up with new treatments that could revolutionize health care. Topics will include precision medicine, digital health, bio-informatics, pharmacogenomics, and more. Speaker information will be available shortly.
