

KAISER IS DRAINING TAX PAYER DOLLARS

While union members and their families are using fewer medical services, Kaiser is demanding more money to protect profits.

SAY NO to Kaiser's Price Gouging

While union members have made sacrifices to get through the Great Recession, Kaiser banked over \$2 billion in profits every year from 2009 through 2012. That's \$8 billion in profits while union members, taxpayers, and residents suffer cuts in wages, benefits, and city services. The City, its employees, and taxpayers paid \$87 million more than it cost Kaiser to deliver health care to members from 2010 through 2012. Now, Kaiser wants more!

City employee unions and the Public Employees Committee are united in opposition to Kaiser's proposed rate hike, as well as the Mayor's office and members of the Board of Supervisors. The City's healthcare bill is nearly half a billion dollars annually. We can't afford price gouging anymore.

Our Health Service System issued a scathing analysis that asked Kaiser to justify the proposed increase. Kaiser executives didn't provide a single concrete answer.
